CALIFORNIA LIST is proud to be honoring the departing women legislators whose service as dynamic members of the California political process has been an inspiration.

CALIFORNIA LIST wants to recognize the great strides these women have made, but also to bring attention effect term limits have on our elected women decreasing the strides we have made toward equal representation.

CALIFORNIA LIST is a rapidly growing political action committee that is organizing a political network in California dedicated to recruiting, funding, and electing qualified Democratic women to the California state government. CALIFORNIA LIST consistently raises the vital early money needed for campaigning by connecting candidates with donors who share their vision for California. Through persistence and commitment, CALIFORNIA LIST ensures that *women are recognized as a powerful vibrant voice, effective agents for change, and a formidable political and economic force.*

Founded in 2002, the CALIFORNIA LIST has attracted dynamic dedicated members determined to end the decline in the number of women elected in California. CALIFORNIA LIST has supported thirty-seven Democratic women—of which eighteen won their elections—an impressive statement of success. Only six women have ever been elected to a statewide position in California. Help us reverse the decline and [join](#) as we build a pipeline to the future.
